By submitting this Warranty Request, the Applicant warrants that he/she will apply the products and/or roofing coating system in strict compliance with EVERROOF's application guidelines, specifications, technical bulletins, along with customary industry practices. Applicant also represents that the substrate will have been evaluated for suitability and will have been pre-tested for proper adhesion. All system warranties and warranty claims shall be subject to verification and third party inspection.

Please be advised that EVERROOF is not an architectural or engineering consultant and disclaims responsibility for Applicator error, the soundness of any particular structure, or the appropriateness of the surface on which its products may be applied.

Applicator acknowledges that it shall rely upon its own experience, skill, expertise, and know-how in preparation, repairing, and applying roof coating products in general. MANUFACTURER'S INSPECTION, OR VERIFICATION SHALL NOT CONSTITUTE ACCEPTANCE OF RESPONSIBILITY FOR ANY IMPROPER APPLICATION OF MATERIAL OR SYSTEM.

EVERROOF disclaims all liability for any structural or surface failure, leakage, and/or any resulting damage resulting therefrom, including incidental or consequential damages.

Applicator shall comply with all applicable local, state and national building codes prior to design and installation. EVERROOF system requirements are not intended to supersede any applicable legal or building code requirements.
